## Bryan's Rides

### We Rent Mules, Horses, and Goats

Did you know that more than 2,000 visitors to the Grand Canyon twisted their ankles last year while hiking? Did you know that another 1,700 stubbed their toes? And over 3,000 people got blisters on their feet! Why risk it? See the Grand Canyon comfortably on the back of a mule, horse, or goat!

We are located near the park's South Rim, on U.S. Highway 180.

**SKILL PRACTICE** Read each question. Fill in the bubble next to the correct answer.

- What is the name of the river that flows through the park?
  - the North Rim River
  - the Colorado River
  - the Arizona River
  - the Lake Mead River
- The main purpose of the map is to \_\_\_\_\_.
  - help visitors find the North Rim
  - help families plan a trip to Lake Mead
  - show people where routes 180 and 64 meet
  - tell people where to find Bryan's Rides
- Which is probably *not* a place you could reach easily from Bryan's Rides?
  - the South Rim
  - Highway 64
  - Lake Mead
  - the Colorado River
- The shaded part of the map represents \_\_\_\_\_.
  - the area of Grand Canyon National Park
  - where water is located
  - where mountains are located
  - areas that are flooded by the Colorado River

**STRATEGY PRACTICE** Would the flier be easier or more difficult to understand if you looked at the map before you read the flier? Explain your answer.
